Maletti & Design

No company in this field can count on such a cast.

Didier Gomez
A Little Talk

Didier Gomez designed for Maletti a resolutely modern collection, but at the same time very glamorous and sexy. An ultra-sophisticated and zen environment. His design captures the eye and the soul, it is pure and essential, soft and welcoming.

Sarah Lavoine
Sarah

Dialogue of materials, play of colors and details that create elegance. The work of designer Sarah Lavoine is based on combinations of sinuous lines and refined shapes, which give a warm and exclusive atmosphere, where you can feel at home.

Claudio Silvestrin
I Tagli

Claudio Silvestrin's design is like his architecture: austere but not extreme. A rigorous sign, without frills or smudges, capable of creating elegance starting from a deliberate and extreme simplicity

Ross Lovegrove
Organic Dreams

Ross Lovegrove is one of the most important and fascinating contemporary designers. He ranges from furniture design to high-tech products, shaping sculptural and organic forms, using sophisticated technologies and materials.

Borek Sipeck
Maletik

Borek Sipeck has always stood out for its neo-baroque elegance, the refined interpretation of Central European formal richness and the alchemy of luminescence. A designer who has given shape to a series of works with feminine grace, capable of touching with immediate shamelessness.

Philippe Starck
Classic, Modern

Considered a true rock star of the design world, Philippe Starck is an undisputed genius in the world of international design. Modern yet wary of progress, classic but innovative: always ready to challenge any traditional classification with unique pieces that respect users.

Stefano Giovannoni ed Elisa Gargan
Alu Green, Green First, Bohème, Old Smoke

Stefano Giovannoni and Elisa Gargan, husband and wife, they are an undisputed authority of Made in Italy design. A couple of artists who have always known how to look to the future, interpreting the new style trends and new fashions.

Christophe Pillet
Eco Fun

Christophe Pillet, artist with an elegantly essential style. He thinks of the figure of the designer not as an object specialist but as a creator of ways and lifestyles. An approach that has essentiality as its leitmotif, animated by a strong creative and innovative spirit.

Matta & Varaschin
Just

Two designers who define themselves as strangers to fashions, aware of the past and curious about the present. Their style seeks the relationships between object, quality and function through the choice of pure materials that sublimate transparency and technological materials that enhance shine.

Since 1989, the year of the first collaboration with Philippe Starck, Maletti Group has continued to collaborate with the greatest international designers, collecting a series of famous names, giving shape to beauty-design.

The Maletti & C. company is born.

1936

1996

Maletti is innovation: The first chair completely made of gel is born.

Davide, 25 years old

Davide, 6 months

The history and innovation of Maletti keep enriching themselves of new talents and designers. On the side, Davide Paterlini (newest Maletti staff member), nephew of the president Danilo, is the last member of the family to join the company. An important legacy to be collected in order to carry on a tradition.

SCAN ME

THE STEAM

The beneficial effects of hot steam allow a deep cleansing, improving the health of hair and stimulating its growth.

EDEN PLUS

50 shades of steam: an experience that touches the five senses.

SCAN ME

GIOVANNONIDESIGN[®]

The Eden Plus system offers treatments with hot steam and rinsing with atomized cold water. The reclining chair with integrated massage gives the customer an all-encompassing relaxation experience.

IGLOO FOR EDEN

VAPOMIST 2.0

With multifunction push button panel

Why choosing EDEN PLUS?

STEP 1

Relaxation and sensory lights

Thanks to the fully extendable massage seat and the RGB LED lights in the hood / igloo, the client enters a state of complete mental and physical relaxation.

STEP 2

Uniqueness and innovation

Bring a unique service to your salon! Combine normal treatments with solutions rich in healthy and effective nutrients, which with the help of steam will restore shine, well-being and deep hydration to the hair. Like the salt treatment.

STEP 3

Hot and cold steam

The hot steam system allows a deep cleansing of the hair and scalp. The treatment improves hair health by eliminating smog, toxins, sebum and stimulating growth thanks to the beneficial effects on the microcirculation.

The exposure of the hair to the cold steam of water, sprayed in very small drops, allows greater rehydration and maintenance of the hairstyle. The beneficial effects of cold water after the heat increase the effectiveness of the moisturizing treatment anti-dandruff and anti-hair loss treatments.

Add the benefits of steam to each treatment, combining Vapomist to the Maletti Group washunits
