STEAM

The beneficial effects of hot steam allow a deep cleansing, improving health of hair and stimulating its growth.

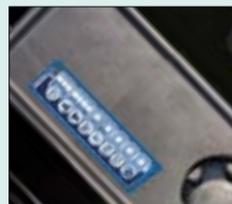

EDEN PLUS
The new frontier of wellbeing
100% made in Italy by Maletti

GIOVANNONIDESIGNTM

IGLOO FOR EDEN

VAPOMIST 2.0
with multifunctional
remote control

The Eden Plus system offers treatments with hot steam and rinsing with atomized cold water. The reclining chair with integrated massage gives the customer an embracing relaxation experience.

STEP 1

First of all, relaxation

Thanks to the reclining massage chair and to the RGB LED lights in the igloo hood, the customer enters a state of total relaxation, both mental and physical.

STEP 2

Hot steam

The hot steam treatment has beneficial effects on the hair shaft and the scalp. It improves the health of hair by removing smog, toxins and sebum and stimulates growth thanks to the beneficial effect it has on the microcirculation system.

STEP 3

Atomised cold water

Exposing the hair to atomized cold water, that is sprayed in very small drops, allows greater rehydration and maintenance of the hairstyle. The beneficial effect of cold water after heat increases effectiveness of the moisturizing treatment, anti-dandruff treatments and anti-hair loss treatments.
